

5 Port 10/100Mbps Desktop Dual-Speed Hub

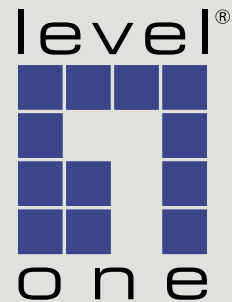

Key Features

- Complies with the IEEE802.3 Ethernet and IEEE 802.3u Fast Ethernet standard
- Built-in 10/100Mbps bridge
- Additional cross-over MDI port for up-link
- Automatic partitioning and reconnection
- Automatic polarity detection and inversion
- Simple plug and play installation

Let the
net
work

5 Port 10/100Mbps Desktop Dual-Speed Hub

LevelOnes FHU-0500TXD 10/100 hub is an auto-sensing, dual speed device that offers a simple, cost effective strategy for integrating Fast Ethernet into your Ethernet network. The ability to work with Fast Ethernet networks makes the device the ideal foundation for handling future networking requirements, while preserving your current investment. The FHU-0500TXD combines the function of an Ethernet Hub and a Fast Ethernet hub into a single physical unit. The device may be cascaded to another hub, allowing to increase port count as your network requirements increase. This way the hub provides small offices and departmental workgroups with an easy and affordable migration path to faster technology. The built in bridge provides internal links between 10Mbps and 100Mbps segments which are automatically detected making the device a real plug and play solution.

Product Specifications

Communication	<ul style="list-style-type: none"> IEEE802.3 10BaseT/802.3u 100BaseTX
Network Interface	<ul style="list-style-type: none"> STP RJ45 port for 10/100Mbps TX auto-sensing
LED indicators	<ul style="list-style-type: none"> Port Link, Port Partition, Utilization, Collision, Activity and Power
Dimensions	<ul style="list-style-type: none"> 190mm(L) x 36mm(W) x 34mm(H)
Temperature	<ul style="list-style-type: none"> Operation: 0 to 50°C Storage: -20 to 70°C
Humidity	<ul style="list-style-type: none"> Operating: 10% - 90% RH Storage: 5% to 90% RH
Certification	<ul style="list-style-type: none"> FCC Class A, CE
Power Adapter	<ul style="list-style-type: none"> 7.5VDC, 1A
